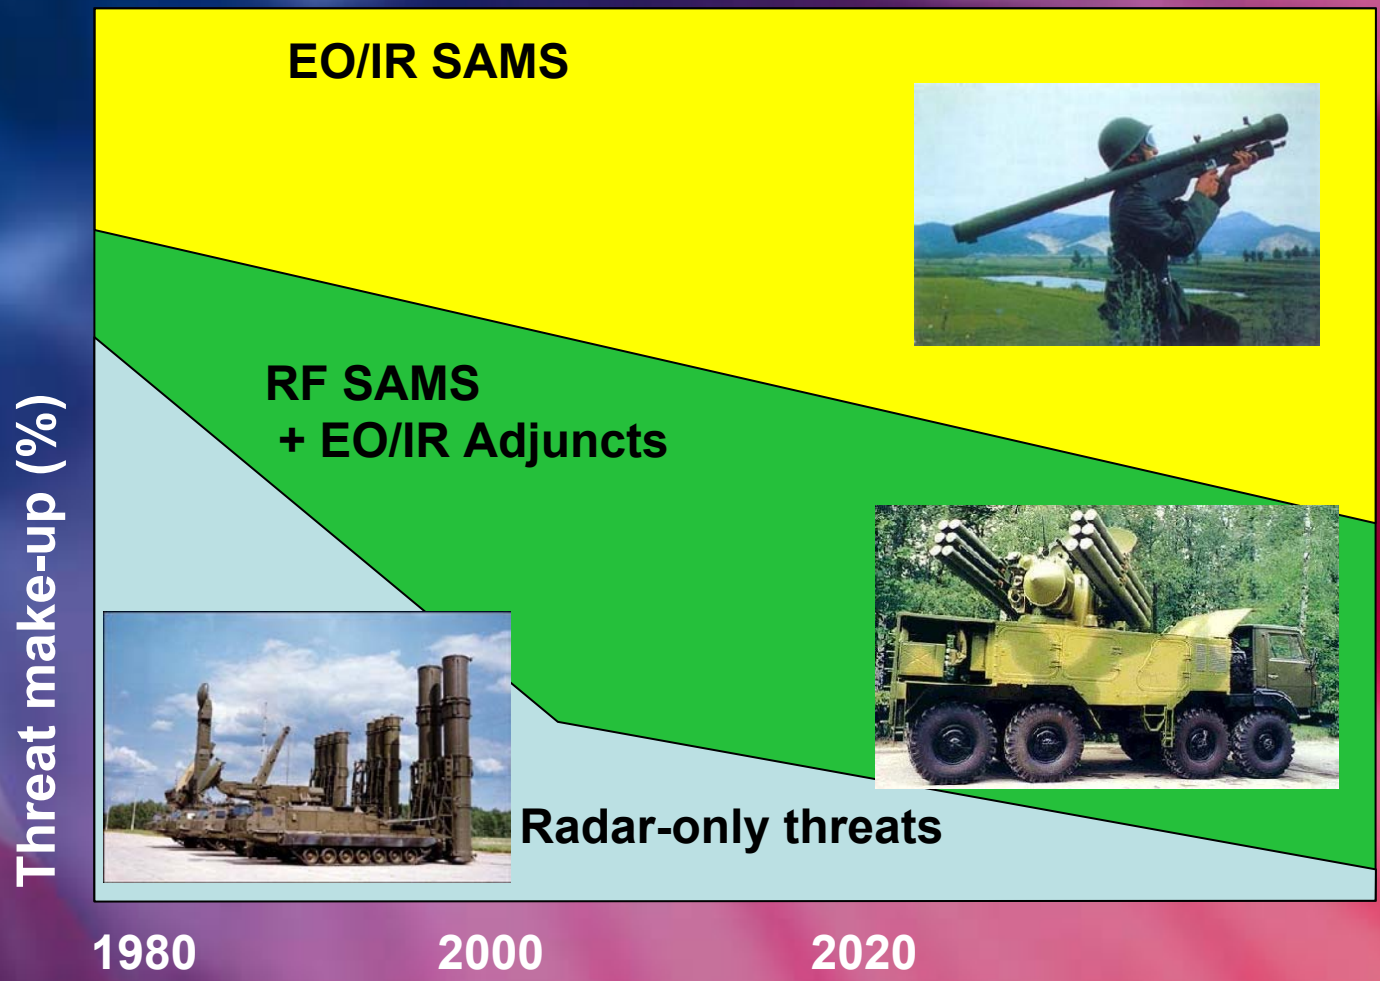
Advanced Optical Sensors

Mr. Robert Hauge
Special Projects Office

Multifunction Electro-Optics for Defense of US Aircraft (MEDUSA)



Transformative Fantasy

DARPA

Distribution Statement A. Approved for public release; distribution is unlimited.

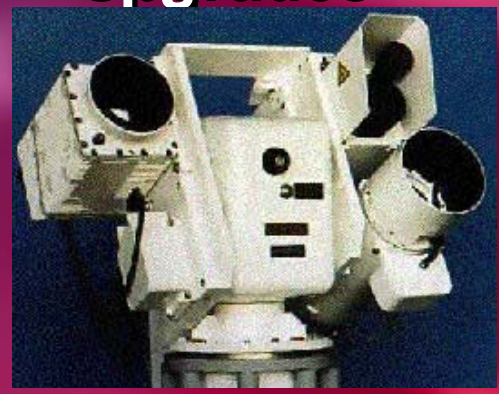
Multifunction Electro-Optics for Defense of US Aircraft (MEDUSA)

Threat Diversity

Integrated RF/EO SAMs

Airborne Sensors and Missiles

EO/IR Tracker Upgrades



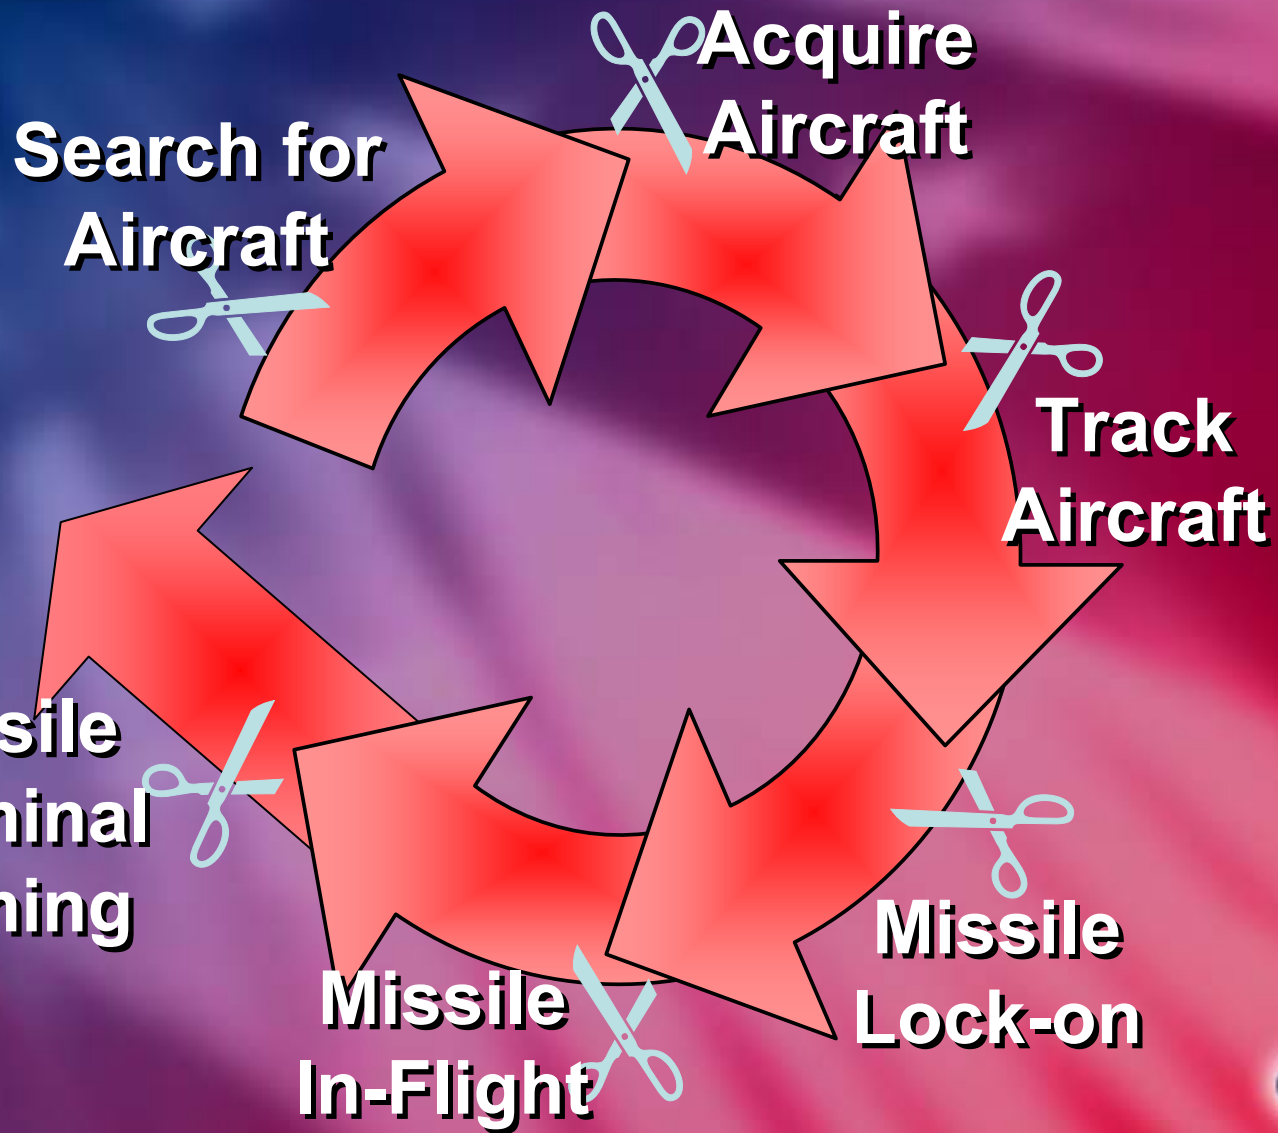
MANPADS (IR SAMs)

Laser Beam Riders

DARPA

Distribution Statement A. Approved for public release; distribution is unlimited.

MEDUSA Layered System



Distribution Statement A. Approved for public release; distribution is unlimited.

MEDUSA Layered System

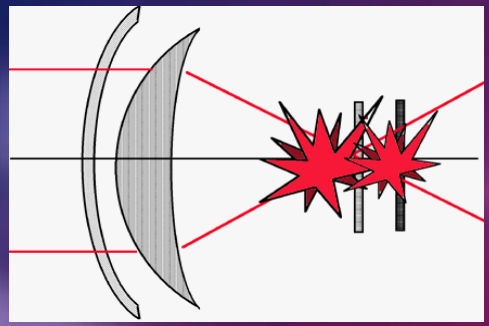
Transformative Fantasy

DARPA

Distribution Statement A. Approved for public release; distribution is unlimited.

MEDUSA Program Outline

Techniques & Measurements



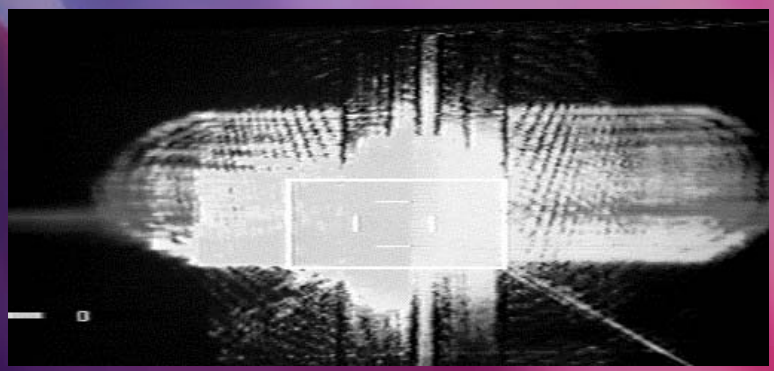
Component Technology Developments

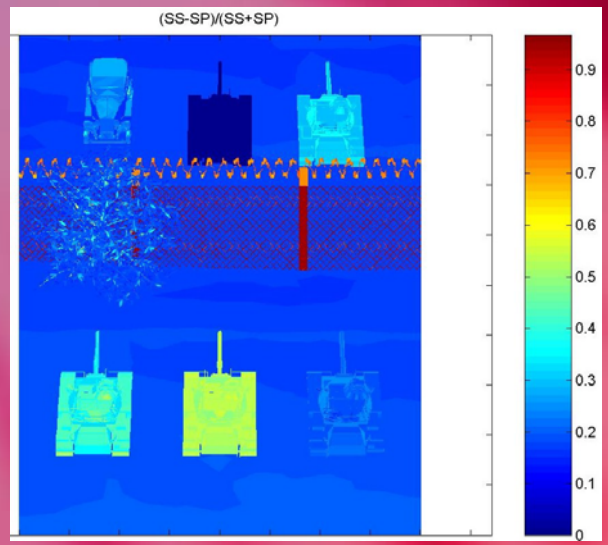
System Development

Distribution Statement A. Approved for public release; distribution is unlimited.

Measurements and Techniques

- Clutter Characterization
- Target Signature Measurement
- Target Classification Techniques
- Optical Countermeasure Techniques





Distribution Statement A. Approved for public release; distribution is unlimited.

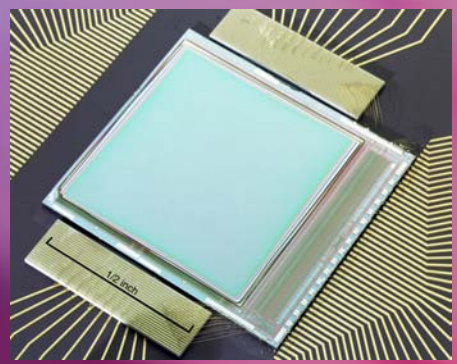
Component Technology Development

- Laser Sources

Distribution Statement A. Approved for public release; distribution is unlimited.

Component Technology Development

- Laser Sources
- Detectors

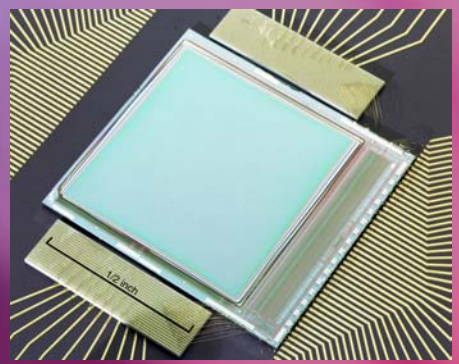


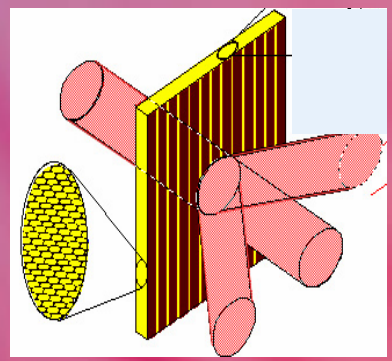
DARPA

Distribution Statement A. Approved for public release; distribution is unlimited.

Component Technology Development

- Laser Sources
- Detectors
- Compact Beam Steering



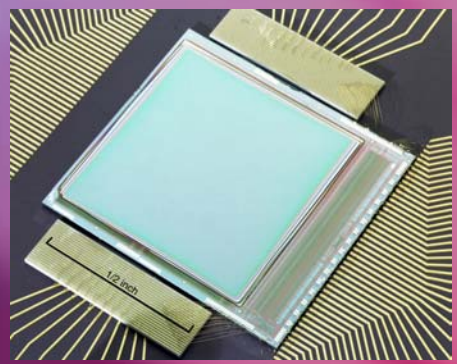


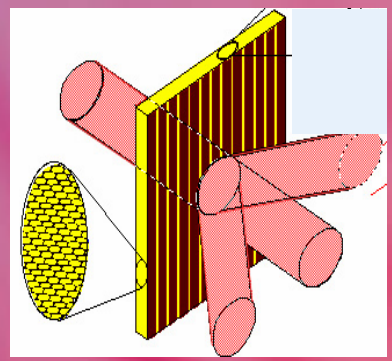
DARPA

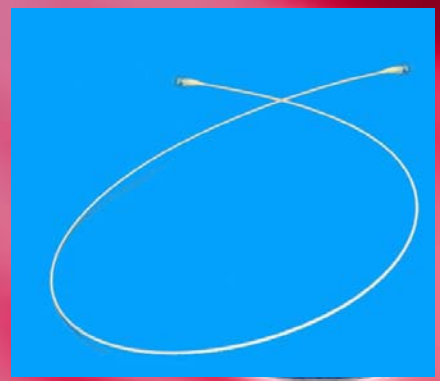
Distribution Statement A. Approved for public release; distribution is unlimited.

Component Technology Development

- Laser Sources
- Detectors
- Compact Beam Steering
- IR Waveguides



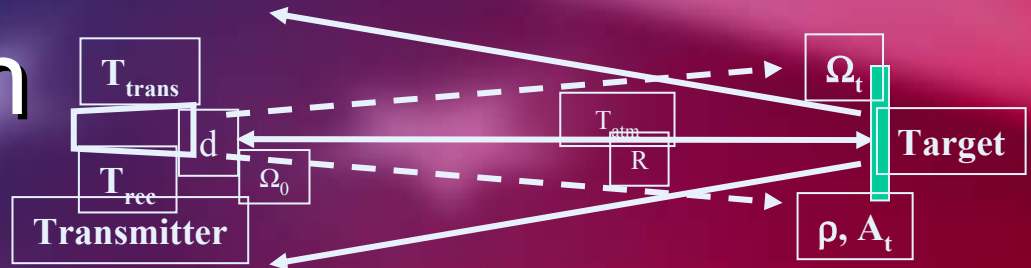


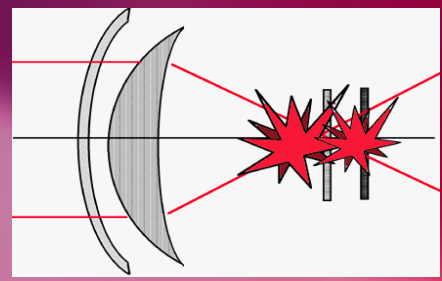


Distribution Statement A. Approved for public release; distribution is unlimited.

System Development

- System Design
- Breadboard
  System/Lab Demo
- Brassboard
  System/Flight Demo

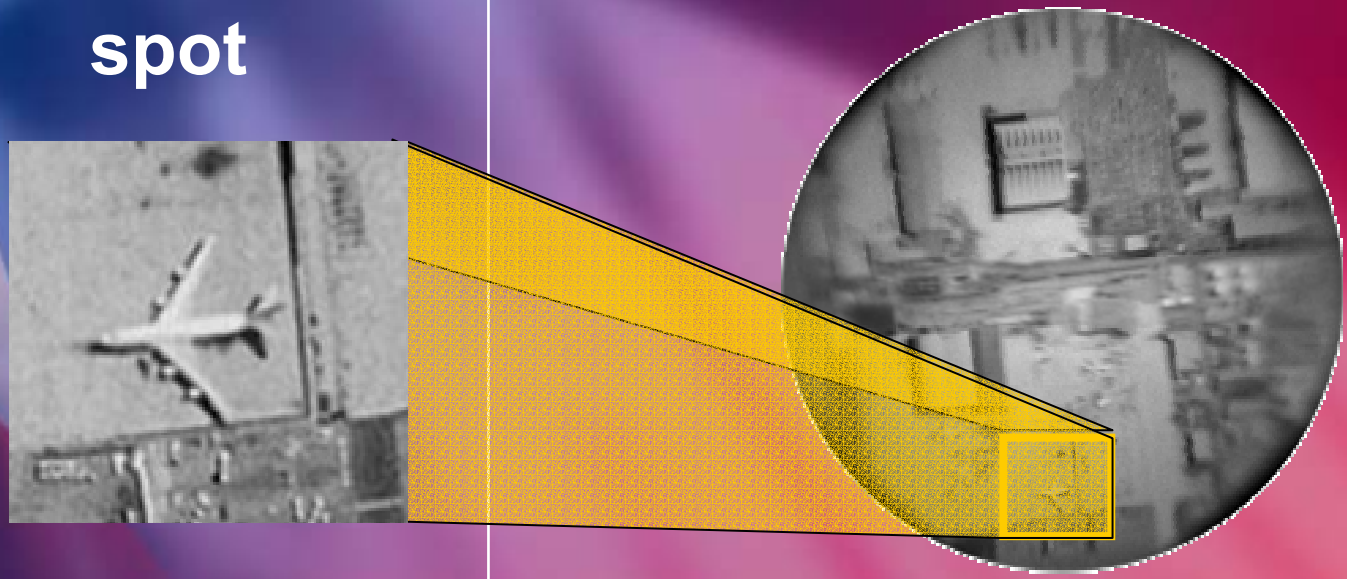




Distribution Statement A. Approved for public release; distribution is unlimited.

Dual Mode Imaging

TODAY	FUTURE
High-resolution imagery in small spot	Wide-area MTI surveillance *and* high-resolution spot image



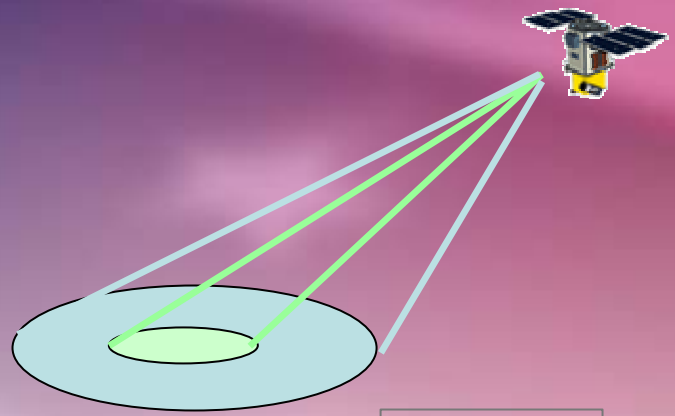
Transforming Fantasy

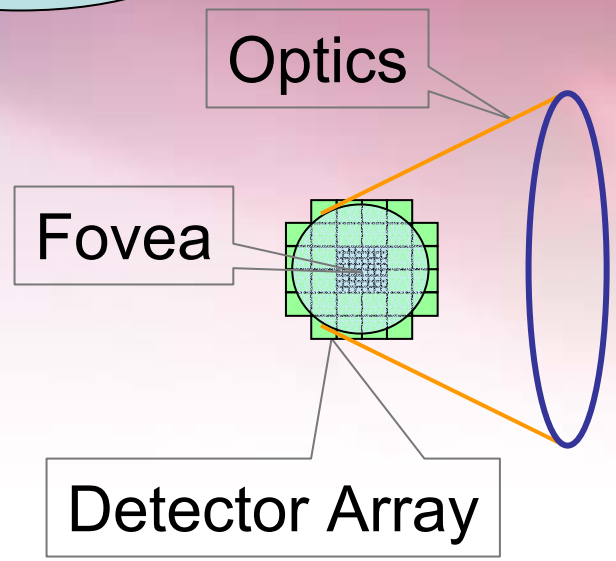
DARPA

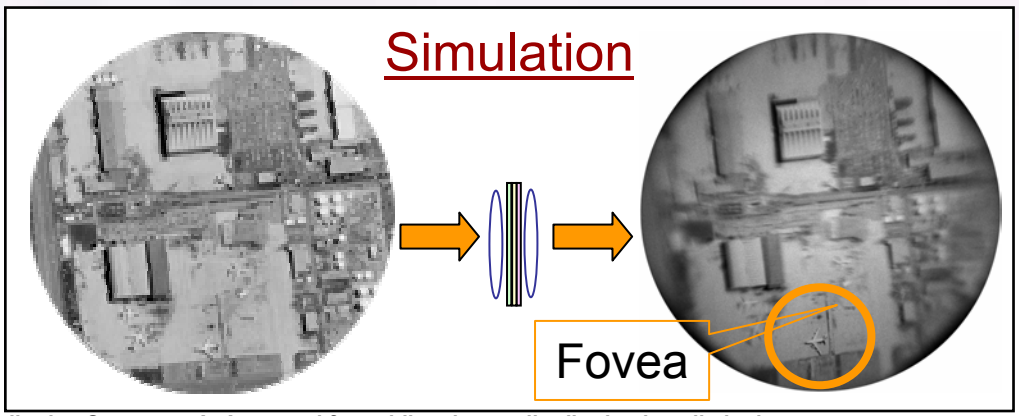
Distribution Statement A. Approved for public release; distribution is unlimited.

Dual-Mode Sensing Options

- Zoom
- "Eyeball-like"
- Electronic fovea

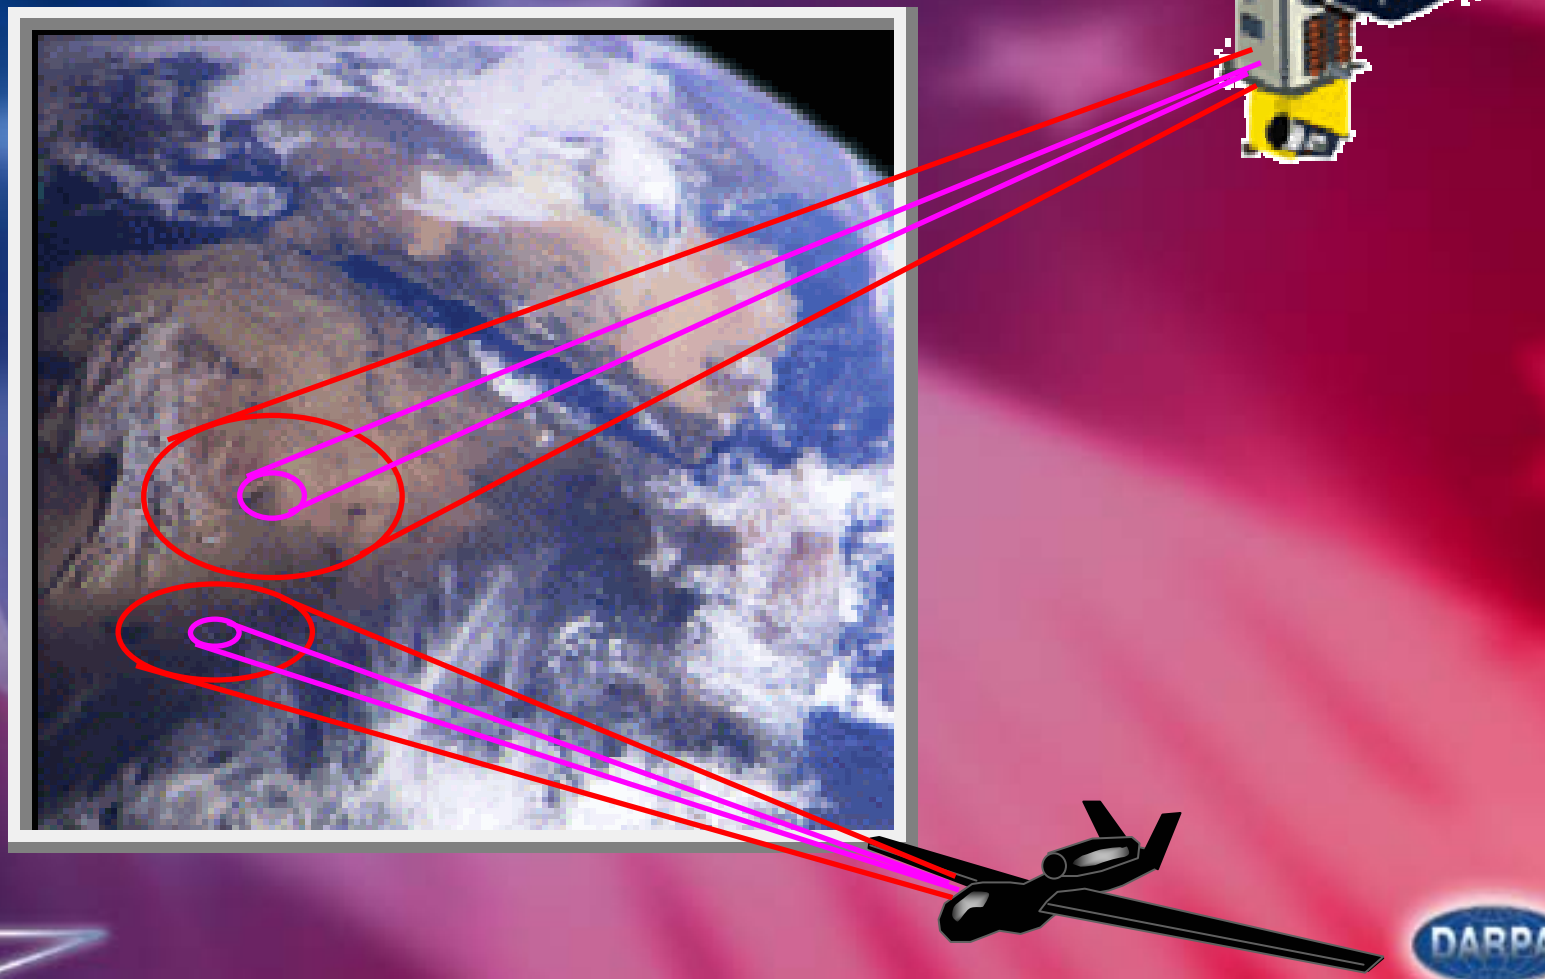






Distribution Statement A. Approved for public release; distribution is unlimited.

Dual Mode Optical Sensor



Distribution Statement A. Approved for public release; distribution is unlimited.
